Product Summary

Calypso is a collection of small lamps inspired to the Forties. They show a connection with the tropical and Southern American World, where the European Deco style, characterized by geometrical lines and black & whites, is twisted and revitalized, thanks to bright colors, patterns and twines.

Product Description

Calypso is a collection of small lamps inspired to the Forties. They show a connection with the tropical and Southern American World, where the European Deco style, characterized by geometrical lines and black & whites, is twisted and revitalized, thanks to bright colors, patterns and twines. The frosted glass diffuser, used in the first industrial lights, with a precious brass ring, recalls the Art Deco style. Servomuto designed Calypso as a family of lamps tightly connected to the tradition, and with a pronounced sense of humor." Available in different designs and sizes.
